

G&W TRANSFER STATION USER INFORMATION

To All Users of the G&W Transfer Station:

The G&W Solid Waste Committee has established many goals in order to meet the ever challenging and changing solid waste industry. As a committee we have a responsibility to establish and maintain a transfer station operation that is efficient, effective, and fair. We are also responsible for pursuing opportunities to reduce the operating costs of the transfer station and ensuring taxpayer funding is assessed fairly and spent wisely.

To support those goals, the committee has spent a significant amount of time and effort researching ways to operate the transfer station more efficiently, restrict access to only authorized G&W users, and distribute the cost of waste disposal more equitably. Some changes have already been put into effect. IE new pricing to fully cover the cost of the disposal of tires, mattresses, freon etc. The next step will be to implement our new Commercial Waste Disposal pricing.

Attached are the basic **Commercial User Waste Disposal Requirements** for your review. These requirements were developed by the G&W Solid Waste Committee and will be implemented and enforced by the Committee, the Greenwood and Woodstock Town Managers and the G&W Operations Team. If you have any questions or recommendations for improvement, please direct them to the Greenwood Town Office at 207-875-2773 or greenwood.me.04255@gmail.com.

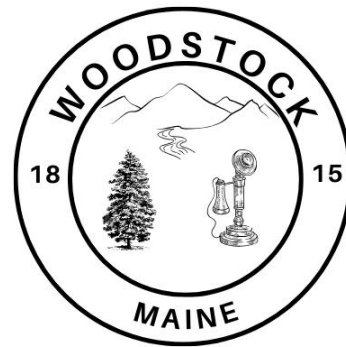

Thank you for your understanding and support for this effort and future initiatives by the committee. We welcome any suggestions from you to improve the efficiency of the G&W Transfer Station.

COMMERCIAL USER WASTE DISPOSAL REQUIREMENTS

Implementation Date October 1, 2026

- **Definition: COMMERCIAL USER** - Anyone who disposes of waste that is related to or is a result of a business operation. This includes but is not limited to, ALL for profit ventures including those that are operated out of a residence, government, and not for profit entities. Remember, if it's not waste generated from your personal use, it's **COMMERCIAL**.
- **What is required:** A **COMMERCIAL TAG** will be required to be purchased by all **Commercial Users** to dispose of business related waste at the G&W Transfer Station and G&W Brush Dump (when open). This tag is required for your business even if you are a resident of Greenwood or Woodstock. **NO COMMERCIAL TAG NO DUMPING**. The Commercial Tag cost is \$25.00 for one year and can be purchased at the Greenwood Town Office at 593 Gore Road, Greenwood, Maine during normal business hours on Monday, Tuesday, Wednesday or Friday. Commercial Tags cannot be purchased at the G&W facility.
- **Also Required:** A **COMMERCIAL PUNCH CARD** will also be required if you are a **Commercial User** and you need to dispose of **Commercial Waste** in the **Construction Debris (CD)** bin on "the Hill". The cost of the card is between \$100.00 and \$1,000.00, depending on the number of punches required or desired. Each punch is worth \$100.00, with a full card holding 10 punches worth \$1,000.00. Commercial Punch Cards can be purchased at the Greenwood Town Office.

One punch will be used for each load, and only **one load may be dropped per day**. A load consists of no bigger than a 5-yard dump truck or a double axle dump trailer.

- **Commercial Punch Card is NOT Required:** Commercial Users will not be charged for disposing of:
 - A. Metal. However, if the market for metal declines, the committee reserves the right to reevaluate this exclusion.
 - B. Recyclable materials such as cans, bottles, #2 plastics, cardboard, etc.
